

*"People have to know you care
before they will care about what
you know."*
-Surgeon General Adams

Hushabye Nursery

Hushabye Nursery is Different

Hospital Model	Hushabye Model
NICU environment	Treat babies in quiet, dark, calm environment
Designed for premature babies, not NAS babies	Private nurseries
Limited resources for family recovery and DCS navigation	Educate families on how to care for NAS baby
Restricted visitation	Family can stay in-room 24/7
Ensure one caregiver to every three babies (1:3)	Ensure one caregiver per baby (1:1)
	DCS specific Case manager
	Specialty-trained staff with passion for NAS babies
	Promote bonding and breastfeeding
	Use five Ss, rock up and down, 6th S-squat techniques
	Wean and treat babies with medications as necessary
	Eat Sleep & Console Treatment Model (ESC)
	Validate Finnegan Neonatal Abstinence Scoring System
	Provide outpatient behavioral health treatment on-site

480-628-7500 WWW.HUSHABYENURSERY.ORG 

Families Served

- Over 925 Babies
- 1900 Parents

480-628-7500 WWW.HUSHABYENURSERY.ORG

78% of all families who work with Hushabye, safely go home with their babies!

480-628-7500 WWW.HUSHABYENURSERY.ORG     

"There's nothing really radically new in treatment aside from a couple of medications since then," said Dr. Mishka Terplan, who has spoken about this issue for years, including at the U.S. House of Representatives. "So, it's not a scientific question. It's really an implementation of will, a priority question."

Hushabye Nursery
IMPACT REPORT
NOVEMBER 2020 - SEPTEMBER 2024

We offer compassionate, evidence-based care that positively changes lives.

Reduced Length of Stay
Average Length of Stay: **22 DAYS**
All-Cause Readmission Rate: **8.5 DAYS**

Drastic Savings of Cost
Average NICU Cost: **\$44,824**
Average Hushabye Nursery Cost: **\$11,008**
The financial impact to the family and hospital system of newborns with NBS is reduced when they are treated at Hushabye Nursery.

Decreased Usage of Morphine
Hushabye Nursery's integrated, family-centered, evidence-informed care model provides the ideal setting for implementation of the Eat, Sleep, Console method that minimizes the need for pharmacologic support.

We Served Since Opening November 2020
1890 PARENTS
858 INFANTS
98% CLIENT SATISFACTION
79% PARENT FOLLOW-UP
62% INFANT FOLLOW-UP
98% CLIENT SATISFACTION

High Success Rate of Working With Mothers' Preference
77% of mothers' preferences were met
16.9% of mothers' preferences were met

Infantile Breathing 26%
